2. Forward Planning

The Executive Forward Plan lists key decisions to be taken by the City Council within the next four months. A key decision, as defined in the Council's Constitution is an executive decision, which is likely: -

- To result in the Council incurring expenditure which is, or the making of savings which are, significant having regard to the Council's budget for the service or function to which the decision relates, or
- To be significant in terms of its effects on communities living or working in an area comprising two or more wards in the area of the city.

The Council Constitution defines 'significant' as being expenditure or savings (including the loss of income or capital receipts) in excess of £500k, providing that is not more than 10% of the gross operating expenditure for any budget heading in the in the Council's Revenue Budget Book, and subject to other defined exceptions.

Relevant extracts from the Executive Forward Plan are attached to this report to enable members to incorporate scrutiny of key decisions into its work programme.
