

## How did the admissions system for secondary schools work last year?

To help you select your preferred schools, it might be useful to see how places were allocated last year. The table below shows how places were offered on offer day (1 March 2011) for Year 7 in September 2011.

Distance from home to school is a significant factor when schools are oversubscribed. However, this distance changes from year to year, depending on who applies for which schools.
