

HELP A
YOUNG
PERSON

GET A
BRIGHTER
FUTURE

The My Future programme offers human resources, co-ordination and support, and fully finances Manchester businesses to offer young people a three-month work placement that provides them with the skills they need for future employment.

If you want to add some drive and energy to your business and can provide a young person aged 16 to 24 with:

- a three-month work placement
- an opportunity to increase their knowledge and develop new skills
- valuable experience in a real working environment
- support and training

then support the My Future programme.
